

Accurate, reliable, connected
blood pressure readings in the palm of your hand.

Welch Allyn Connex®
ProBP™ 3400
Digital Blood Pressure Device

WelchAllyn®

Advancing Frontline Care™

Take blood pressure accuracy to the next level.
In fact, take it anywhere.

Small enough to fit in your hand, with the same accuracy as Welch Allyn industry-leading vital signs devices, the ProBP™ 3400 is a smart choice for clinicians in just about every medical setting.

The Welch Allyn Connex® ProBP™ 3400 puts consistent, accurate blood pressure readings at everyone's fingertips.

- Small, handheld design makes device easy to carry and capture readings on rounds or in triage settings
- SureBP™ NIBP technology enables fast, accurate 15-second blood pressure readings, improving patient comfort
- Obtains accurate readings and minimizes error codes, even in the presence of many cases of motion or weak pulse
- USB-wired technology enables integration to select EHR/EMR systems, improving documentation accuracy and efficiency

- Compatible with Welch Allyn cuff sizes ranging from small child (size 8) to thigh (size 13)
- Lithium ion battery technology delivers 100 readings on a single charge with rapid recharge time
- Configurable to match your workflow and specific patient needs. Upgradeable so that your initial investment is protected as your needs change

The perfect blood pressure solution for just about any care setting.

Physician Office

Hospital

Specialty Care

Physician Office

With AAMI/BHS-AA-compliant accuracy, SureBP™ blood pressure technology that captures readings in just 15 seconds, and the ability to work with a broad range of cuff sizes¹, the ProBP™ 3400 is a reliable alternative to manual sphygmomanometers. The ProBP™ 3400 is also an affordable approach to digitally capture blood pressure measurements and export readings to electronic health record systems.

¹The ProBP™ 3400 is not intended for neonatal use.

Hospital

Small enough to carry in your hand, the ProBP 3400 is a convenient alternative to manual sphygmomanometers or larger vital signs devices for capturing reliable blood pressure readings during rounds or in triage settings. A mobile stand featuring a compact footprint and accessory basket enhances portability with an added measure of security and the ability to store extra cuff sizes on board.

Specialty Care

In situations when you need accurate blood pressure readings quickly and easily, look to ProBP 3400 first. Whether in long-term care, sports medicine, dental health, occupational health, or other applications that call for reliable, repeatable blood pressure, the portable and accurate ProBP 3400 is the right choice for you.

"...(SureBP technology) offers great advantages in speed and patient comfort...clinicians can have added confidence in this new technology."

-Dr. Bruce S. Alpert

Proven Accuracy and Reliability

- Using the same ground-breaking SureBP™ technology found in the Welch Allyn Spot Vital Signs® LXi, the ProBP™ 3400 can capture blood pressure readings in just 15 seconds—nearly twice as fast as other electronic blood pressure devices.
- Meets AAMI standard for blood pressure accuracy
 - Achieved "AA" rating by British Hypertension Society data analysis

○ **Connect to your electronic health record system**

The Connex® ProBP™ 3400 comes connectivity-ready, allowing you to integrate it with the electronic health records system you have now or in the future. With a hardwired USB connection, the Connex® ProBP™ 3400 communicates with select EHR/EMR systems in the physician's office, reducing documentation errors and improving efficiency.

○ **The correct cuff means the correct reading**

Unlike many digital blood pressure devices, the Connex ProBP 3400 works with a very broad range of cuff sizes², minimizing the potential for inaccurate readings on patients large and small. Plus you have all the advantages of unique Welch Allyn FlexiPort® cuffs that enable quick, snap-fit connections, disposable cuffs to reduce cross-contamination risk, and facility-standardization benefits. Visit www.welchallyn.com/flexiport for more information.

²The ProBP™ 3400 is not intended for neonatal use.

Configured for your facility and your workflow
